To search by subject, in the message list,	touch and hold a subject.

**For more actions, see the setup wizard on your BlackBerry® smartphone.**

## Wi-Fi connection basics

---

Connect to a Wi-Fi network

**If you are in a Wi-Fi coverage area and your wireless service plan supports it, you can connect to a Wi-Fi network so that your BlackBerry® smartphone uses the Wi-Fi network instead of the mobile network to send and receive email messages, visit web pages and so on.**

1. On the Home screen, click the **Manage Connections** icon.
2. Click **Set Up Wi-Fi Network**.
3. Perform one of the following actions:
  - Click **Scan for Networks**. Click a network.
  - Click **Manually Add Network**. Type the network name. Click **Add**.
  - If you are using a wireless access point or router that is enabled with Wi-Fi Protected Setup™, click **Push Button Setup**.
4. Complete the instructions on the screen.
5. When you are prompted to save a profile for the Wi-Fi network, click **Next** so that your device connects to the Wi-Fi network automatically next time.

6. On the Wi-Fi Setup Complete screen, perform any of the following actions:
- To change the order of Wi-Fi profiles, click **Prioritise Wi-Fi Profiles**.
  - To complete the Wi-Fi connection setup, click **Finish**.

To change your Wi-Fi options later, on the Home screen, click **Manage Connections**. Click **Wi-Fi Options**.

## Wi-Fi connection indicators

Indicators at the top of the Home screen display Wi-Fi connection details for the area you are using your BlackBerry smartphone in.
